DIAMA-HARD PLUS

Proprietary Concrete Sealer, Hardener & Densifier
With Microban[®] Antimicrobial Product Protection

Coverage Rate: 400-600 sq. ft./ gal
Available In: 1 & 5 Gallon Pail

OVERVIEW

DiamaPro[®] Diama-Hard Plus is a proprietary, chemical reactive sealer and densifier for new and existing concrete surfaces. This water-based silicate solution penetrates just below the surface, filling micro-voids and becoming an integral part of the concrete substrate. It is formulated to increase the abrasion resistance and surface strength of concrete floors. Treated surfaces reduce concrete dusting which minimizes floor maintenance and in so doing promotes a cleaner, healthier environment. DiamaPro[®] Diama-Hard Plus is a non-film forming material which can be applied to new or existing concrete surfaces. As it increases the concrete density, it can also improve appearance, light reflectance, and overall performance. Product application is completed in a simple one-step process.

ANTIMICROBIAL PRODUCT PROTECTION

DiamaPro[®] Diama-Hard Plus is infused with Microban[®] Technologies. Microban[®] antimicrobial protection works to combat the growth of bacteria, mold, and mildew on protected surfaces. It keeps floors cleaner and reduces odor by reducing damaging microbial growth before it can start. For applications where sanitation is crucial – such as cafeterias, restaurants, supermarkets, healthcare facilities, pharmaceutical labs, schools, restrooms, kennels, and veterinary offices - all DiamaPro[®] treatments with Microban[®] technologies are the ideal solution.

FEATURES & BENEFITS

- Easily Penetrates Concrete Surfaces to Increase Surface Density And Hardness
- Simple, One-Step Application - No Scrubbing, Flushing or Caustic Wastewater
- Apply To Broom-Finished, Steel-Troweled, Power-Troweled, or Burnished Concrete
- Low Odor, Non-Flammable & Low VOC (<5 Gr/L)
- Microban[®] Antimicrobial Product Protection
- Brightens And Enhances Colors
- Dramatically Reduces Surface Dusting & Improves Surface Performance, Appearance, And Light Reflectance of New or Existing Concrete
- Product Is Ready-To-Use
- Provides Protection in Residential, Commercial And Industrial Applications
